In claim 1, line 10 after "adsorptive separation" inserted "step and collecting the separated aromatic compound isomer".

In claim 6, line 2, after "adsorptive separation" inserted "step".

In claim 6, line 4, after "adsorptive separation" inserted "step".

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: Applicants' process for separating an aromatic compound isomer is unobvious over the prior art of record because the prior art of record does not teach or suggest purifying the desorbent to achieve a level of impurities below 1,000 ppm by weight, followed by recycling the desorbent back to the adsorptive separation. All claims (1-17) are allowed.

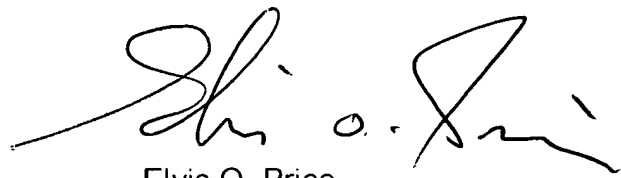

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
